

EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2023 – 2027	B.E. Computer Science	Thapar Institute of Engineering & Technology, Patiala	7.53 CGPA
2022 – 2023	CBSE (XII)	SAJSMS, Ambala	88.6%
2020 – 2021	CBSE (X)	SAJSMS, Ambala	91.4%

PROJECTS

- Cloud Share

Spring Boot, Spring Cloud Gateway, PostgreSQL, Redis, Cloudinary, React.js

GitHub | Live | Swagger

– Built backend for a full-stack, microservices-based cloud storage platform; designed authentication and file management services, configured API routing via Spring Cloud Gateway, and secured APIs with JWT.

– Integrated Redis caching and Cloudinary storage, documented REST APIs with Swagger, and improved modularity by decomposing a monolith into independent services while preserving folder hierarchy and fast search.
- BookMyEvent

Spring Boot, PostgreSQL, Spring Data JPA, React.js, Redis

GitHub | Live | Swagger

– Built backend for a full-stack event management and ticket booking platform; implemented JWT authentication, role-based access control, and end-to-end booking workflows.

– Implemented payment verification, email integration, and Redis caching with a DTO-based API design.
- Cab On Campus

Spring Boot, PostgreSQL, Spring Data JPA, React.js, Redis

GitHub | Live | Swagger

– Built backend for a full-stack campus cab booking platform for students, drivers, and admins; implemented JWT-based authentication and role-based authorization.

– Designed DTO-driven APIs with centralized exception handling; achieved an average API response latency of 120ms on localhost during testing.
- Skills Swap

Spring Boot, WebSocket API, MongoDB, React.js

GitHub | Live | Swagger

– Built backend for a full-stack skill-barter platform enabling users to exchange skills; implemented authentication, profile management, and barter post/request workflows.

– Added real-time one-to-one messaging via WebSocket, skill-based discovery, and admin dashboard features; documented APIs with Swagger.

TECHNICAL SKILLS

- Programming Languages: Java, SQL, C++, JavaScript
- Backend Technologies: Spring Boot, Spring Data JPA, Spring Security, Hibernate, Microservices, Spring Cloud
- Frontend Technologies: HTML5, CSS3, JavaScript, React.js, Bootstrap
- Databases: PostgreSQL, Redis, MySQL, MongoDB
- Tools: VS Code, IntelliJ IDEA, Eclipse, Git, GitHub, Maven, Postman

KEY COURSES TAKEN

- Relevant Coursework: Introduction to Computer Programming, Operating Systems, Computer Architecture, Data Structures and Algorithms, Object Oriented Programming, Computer Networks, Machine Learning, Software Engineering, Data Engineering, Database Management Systems

CERTIFICATIONS

- Java (Basics) – HackerRank
- SQL (Basics) – HackerRank
- JDBC, Servlets and JSP – Java Web Development Fundamentals – Udemy
- Spring Boot & Spring Framework – Udemy

DSA & CODING PROFILE

- LeetCode – 300+ problems solved
- GeeksforGeeks – 300+ problems solved, 950+ Coding Score
- Coding Ninjas – 200+ problems solved

TECHNICAL HIGHLIGHTS

- Active GitHub profile with 40+ public repositories.
- 950+ GeeksforGeeks Coding Score.
- Ranked in the top 3% among 14,500+ GeeksforGeeks users at Thapar University.
